

WinZip® E-Mail Companion

Easily Zip & Encrypt E-mail Attachments

BENEFITS

- Reduce the size of e-mail attachments
 - Send e-mails faster
 - Save download time for recipients
 - Reduce the amount of disk space required to store e-mails
- Reduce the time spent creating e-mails
 - Fewer steps to compress and add attachments
 - Works within the Microsoft® Office and e-mail programs that you already use so there's no learning curve to get started
- Protect attachments containing sensitive information with password-based AES encryption

PRODUCT DESCRIPTION

WinZip E-Mail Companion is an easy-to-use, time saving tool that reduces the size of outgoing e-mail attachments and provides password-based AES encryption to protect confidential information in those attachments.

WinZip E-Mail Companion works seamlessly within Microsoft® Outlook®, Outlook Express or Windows® Mail

(Windows Vista™) and is the perfect solution for reducing the complexity and time that it takes to send and receive attachments via e-mail, and will reduce the amount of disk space required to store those messages. Simply write your e-mail, attach your files, click Send and let WinZip E-Mail Companion do the rest.

WinZip E-Mail Companion will ensure that your attachments are as small as possible.

If you send a document, spreadsheet or presentation directly from Microsoft® Word, Excel® or PowerPoint®, WinZip E-Mail Companion will zip and e-mail these files in one step. What's more, you can also save your file as a Zip file directly from within these Office applications.

You can even customize behavior and performance to meet your specific needs thanks to WinZip E-Mail Companion's flexible configuration.

FEATURES

Automatic, Prompted or Manual Zip and Encrypt

Quickly and easily compress e-mail attachments when you press 'Send' in Microsoft® Outlook®, Outlook Express or Microsoft® Windows® Mail (Windows Vista™). Sending confidential information? Use WinZip E-Mail Companion's password-based AES encryption option to protect your attachments.

Microsoft® Office Integration

Save your file as a Zip file or send your file as a compressed e-mail attachment directly from within Microsoft Word, Excel® or PowerPoint®.

Best Method using Advanced Zip File Compression

Achieve optimal file compression to ensure that your e-mail attachments are as small as possible. This is especially helpful when you're trying to send files that may otherwise exceed the maximum size allowed by your (or your recipient's) e-mail service. Choosing our **Best Method** option will also reduce the time to send and receive your e-mail, and minimize the amount of space required to store e-mails with attachments.

File Exclusion List

When attaching only a single file, you can save time by excluding designated file types from WinZip E-Mail Companion's automatic compression option. You can also set a file size filter so that WinZip E-Mail Companion doesn't compress files smaller than the limit you set.

Password-based AES Encryption

Use strong passwords or passphrases to protect your confidential information from unauthorized access with WinZip's FIPS-197 certified 128-bit or 256-bit AES encryption.

Alternate Attachment Extension

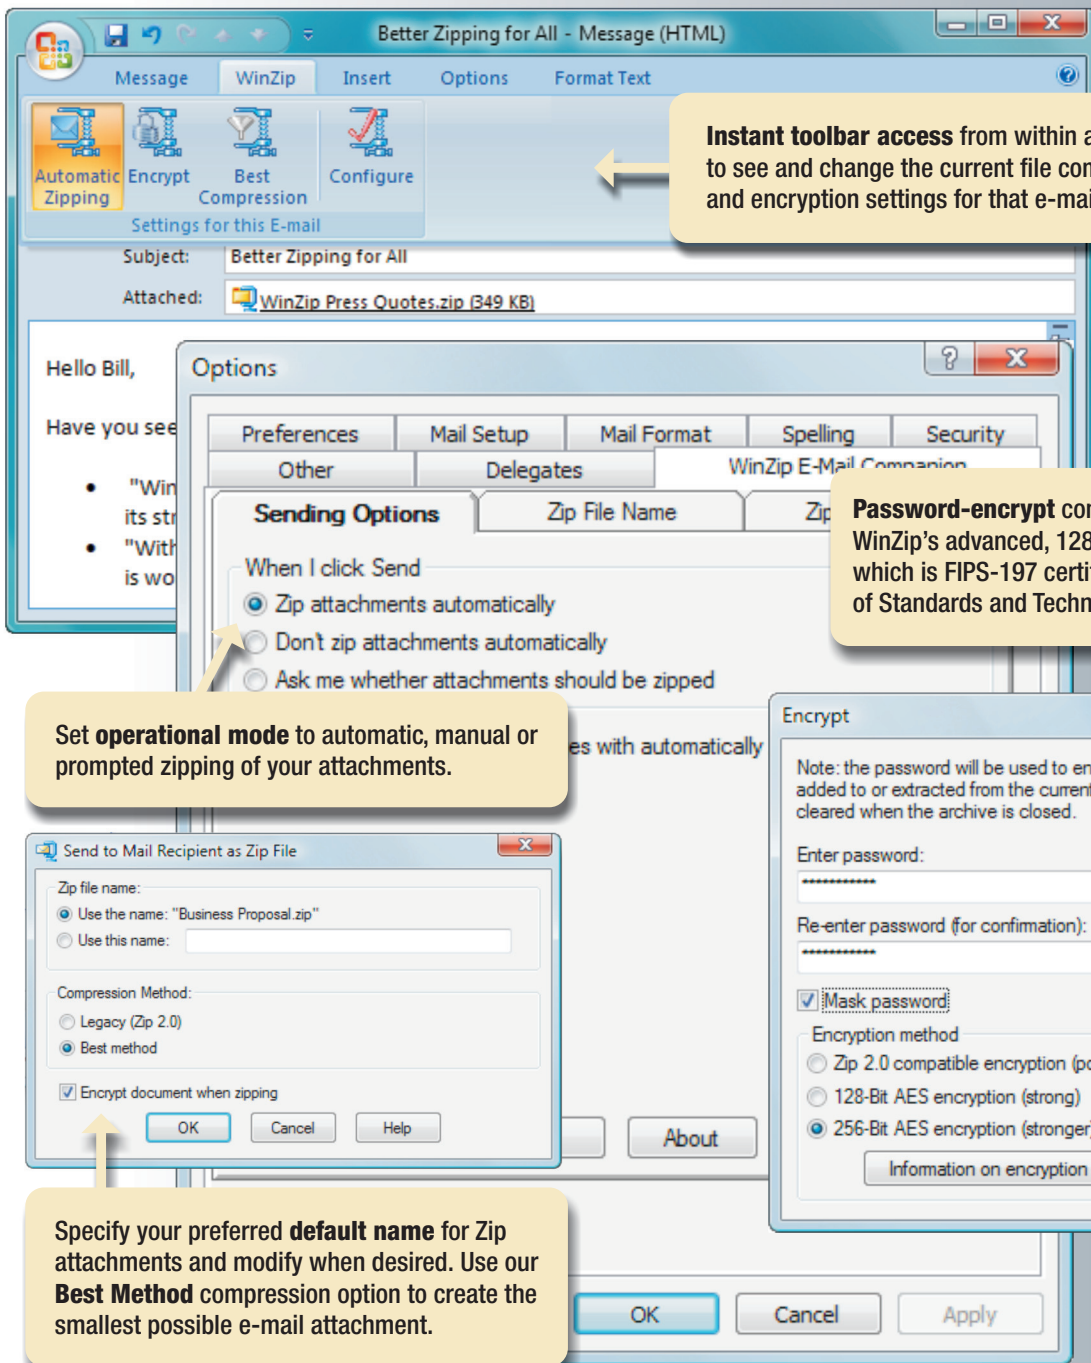

Automatically change the file extension used for your compressed attachments to prevent some e-mail services from blocking them.

Legacy Zip 2.0 Support

Using Zip 2.0 ensures that any version of WinZip (or other standard zip utility) can open the attachment.

Flexible Configuration

Customize the behavior and performance of WinZip E-Mail Companion to meet your specific needs.

Instant toolbar access from within an e-mail to see and change the current file compression and encryption settings for that e-mail.

Password-encrypt confidential information with WinZip's advanced, 128-bit and 256-bit AES encryption, which is FIPS-197 certified by the National Institute of Standards and Technology (NIST).

Set **operational mode** to automatic, manual or prompted zipping of your attachments.

Specify your preferred **default name** for Zip attachments and modify when desired. Use our **Best Method** compression option to create the smallest possible e-mail attachment.

Requirements

WinZip E-Mail Companion requires that Outlook 2002, Outlook 2003, Outlook 2007, Outlook Express 6.0, or Windows Mail 6.0 be installed on your system with Windows 2000, Windows XP, or Windows Vista.

Optional: Microsoft Word, Microsoft PowerPoint or Microsoft Excel (2002, 2003, 2007)
